## Electrical boiler for space heating

Supplier's name:	NIBE	
Model:	ELK 42	
Seasonal space heating energy efficiency class, average climate:	D	
Rated heat output (P <sub>design</sub> ), average climate:	42	kW
Sound power level L <sub>WA</sub> indoors	35	dB
Annual electricity consumption for water heating, average climate	94781	kWh

## Information for package label

Class of the controller	I	
Contribution to the energy efficiency	1	%
Seasonal space heating energy efficiency, average climate:	37	%
Seasonal space heating energy efficiency class, average climate:	D
